# Eric Strohmaier

Software Developer

## Technologies and Languages

---

- **Languages:** TypeScript/JavaScript
- **Technologies:** Node.js, Express, Docker, React, Next.js, HTML & CSS, jQuery, MongoDB, Supabase(SQL-DB), Git, Tailwind CSS, Mui, Shadcn-UI
- **Tools:** GitHub, RESTful API, Web-Automation, Figma

## Work Experience

---

### 2023 Freelance Developer

#### [Upwork](#)

- Java-Script Automation inside existing Clients-Project, Updating SQL Databases, fetching new Items, and optimised the workflow so that everything runs efficient and automatic.
- [Telegram Bot](#) ← **Link for Bitvocation** <https://www.linkedin.com/company/bitvocation>
- Created applications that runs with Node.js and Cronjob multiple times day and gathers data about Bitcoiner-Jobs, storing them inside a PostgreSQL database.
- With the Telegram-API I develop a highly effective bot that fetches only the latest entries and send it to the channel. I build all this in Docker-Images so the hosting is very easy and flexible

### 2023 Personal Full-Stack Pojects

#### [OneTask-App](#) ← **Demo Link** → [GitHub](#)

- This is a Productivity app based on date the user gets different “focus questions” asked.
- Saving each user answer in a PostgreSQL database where it gets displayed in a dashboard with extra CRUD functionality.
- Technologies used: TypeScript, Next.js (13), Tailwind CSS, Framer, PostgreSQL
- [E-Commerce Store](#) ← **Demo Link**
- Next.js for reusable and shared components, Sanity as CMS, Stripe to handle the checkout, React-toast for notifications, Shadcn-ui and Tailwind for the styling.
- [Easy Recipe Finder](#) ← **Demo Link**
- Scraping recipes from a blog and building a beautiful easy to use website to filter and get random recipes ideas helped me and everyone who used the app.

**2020-2022** Previously worked as a Chef in Tian, Vienna (Michelin star restaurant) and Vinzenz Pauli
